When the activities and date are agreed, a booking form and risk assessment are emailed to you.

To confirm the visit we ask that you complete the booking form and email it back to us.

This area proved a vital strategic ground for the Roman army at the start of their British occupation from 43 AD. They initially built a fort at Longthorpe, then a settlement called Durobrivae grew which was inhabited until the end of the Roman rule in 410 AD. This activity links well with the study of the impact of Romanisation in the local community.

Learning Objectives:

- To develop historical skills with enquiry and evidence based learning.
- To make inferences from objects
- To develop an understanding of Roman life
- To develop an understanding of how our understanding of the past is constructed from a range of sources.
- To articulate and justify answers, arguments and opinions during group work and analysing the objects.
- To gain confidence in participating in discussions and presentations

Activity

Discover the origins of Roman Peterborough, then rotate round a carousel of five activities designed to reflect life in the Roman region around Durobrivae. These are the Roman fort, Castor Praetorium, Mill Hill Villa Kitchen, Industrial Workshops and Durobrivae Market. Get hands on with real Roman artefacts, dress like a Roman and have a taste of Roman life.
